Experiences

European University Viadrina (EUV), European New School of Digital Studies (ENS), Frankfurt (Oder);

Chair of Sociology of Technology;

Graduate Research Assistant of **Erasmus** + Project [ETHICS4CHALLENGES](#).

July 2023 – Present

I work on inspecting, mapping, and analyzing the gaps between academic ethics education and the ethical digitalization challenges registered and collected from different industry sectors. My main tasks include desk research, conducting focus groups and semi-structured expert interviews, data analysis, and engaging in the design and implementation of an OEP.

Technical University of Munich (TUM), Munich Center for Technology in Society (MCTS), Munich, Germany;

Chair of Law, Science and Technology;

Graduate Research Assistant **BIDT** Project [Coding Public Value](#).

June 2020 – July 2023

My research focused on mapping the heterogeneous relationships between internal and external Public Service Media (PSM) stakeholders in Germany to see if and how public values are embedded in these PSM's Online Media Libraries. The results showed public values and PSM platform co-dependencies, as it also rejected the one-way hierarchical ordering of values, emphasized values' bottom-up nature, and perceived it as a disruptive force in the design and development of a public service platform.
